

THE DIRECTOR'S WELCOME

DAUPHIN COUNTY WORK RELEASE MALE RESIDENT GUIDE

**TODAY IS NOT
JUST ANOTHER DAY.
IT'S A NEW
OPPORTUNITY,
ANOTHER CHANCE,
A NEW BEGINNING.
EMBRACE IT.**
KUSHANDWIZDOM

Welcome to the Dauphin County Work Release Center. Your placement here says that you will be moving back into your community in the near future. It is crucial to your success that you prepare for that date.

It is critical that you obtain meaningful and lasting employment. This is the primary function of the program. You must work full time and as much as possible. This will support your family, as well as satisfy financial obligations imposed by the court.

Secondly, our function is to assist with special conditions imposed by your judge. Special conditions that can be completed while you are in the work release center will make your transition much easier if you have already satisfied some of your obligations to the court. This will allow you to focus on your progress as a resident in the work release center and prepare to make a positive adjustment to parole supervision so you avoid future contact with the courts. The center works very closely with the parole department and our staff can assist you in moving from incarceration to parole supervision.

A positive outlook is a key component to success. If you choose to not prepare yourself for your release, or display a negative approach to your placement at the center you are setting yourself up to fail. Residents fail because they do not accept responsibility for their actions. This leads to negative interactions with other residents, staff and employees. Often, these residents fail and are removed from the program or worse, they complicate matters by escaping. I can't emphasize enough this faulty logic. This never settles the real issue and buys only a few days, weeks, or months of freedom before facing new criminal charges. If you take nothing else from this welcome, listen when I say that escaping will not solve any problem. Accept responsibility for yourself. Focus on taking action to guarantee a successful release. Listen to your assigned officer. The staff at the work release center is here to assist you to succeed. We are looking to improve your opportunities through job development, treatment, and education. Many of these services will be offered at the work release center and I encourage you to participate in these programs. It is for the benefit of you and your family. Good luck and best wishes.

Matthew A. Miller

The Dauphin County Work Release is operated strictly to provide you an opportunity to turn your life around and enhance your career choices.

Although the restrictive nature of the work release environment may seem somewhat stifling at times, this is necessary to ensure the safety of your experience while at the center, and to provide you with a healthy temporary residence, as well as to provide you with a restful atmosphere when you return to work.

The ultimate responsibility for your success will depend on you, and you alone. The work release staff and I, will make every attempt to assist you in any way possible as long as all rules and regulations of the work release center are adhered to.

UNEMPLOYED RESIDENTS— Under the supervision of the Employment Transition Team (ETT)

1. POLICIES AND PROCEDURES

- a. Any unemployed resident placed under the supervision of ETT will be allotted up to a 30 day period to obtain employment. Employment assistance programming will be provided during this time.
- b. If the resident fails to actively engage to obtain a job or is unemployed after 30 days, ETT shall assess resident's efforts and possible impeding factors, if any, and determine if a disciplinary review is warranted to reevaluate resident's continued participation in the work release program.
- c. ETT residents will be permitted one grocery and one drop-off per week, or two drop-offs. When residents are out on grocery, they are expected to return within their allotted time with groceries and receipt.
- d. The unemployed resident will be permitted to go to religious services.
- e. Court ordered treatment is mandatory. Recommended treatment is required by work release policy.
- f. Upon successfully obtaining and sustaining full time employment for a period of 7 days, the resident will be reviewed for transition from the ETT status to regular resident status. ETT status changes occur every Friday and UT's can be taken starting Monday of the following week.
- g. Should a resident with gainful employment suddenly lose that job, they will be written up and court lined to determine if the resident is at fault and if any disciplinary action will be taken.

2. ROLL CALL

- a. ETT residents will be woken at 6:00 am daily to ensure enough time for all residents to be dressed, groomed and utilize pill call if necessary. ETT residents will need to sign the wake-up sheet and get up when woken by staff. Residents should be standing at attention for roll call at 6:30 am ready and prepared to start their day. Morning roll call will quickly account for all ETT residents at which time residents will have their daily schedules set which could include job seeking, interviews, mandatory assigned community service and/or treatment appointments.
- b. ALL UNEMPLOYED RESIDENTS MUST REPORT TO ROLL CALL!

WORK REQUIREMENTS/EMPLOYMENT

1. FULL TIME EMPLOYMENT

- a. You must maintain a full time job or close to full-time hours in order to stay at the WRC. If a conflict arises between a full time job and a part time job, the full time job takes priority. **A minimum number of hours per week as determined by the ETT is considered full time employment and must be maintained.**
- b. You can not quit a job or change employment without approval of the WRC Employment Transition Team, Deputy Director or the Director, in agreement with your assigned Casebook Officer.
- c. **When, or if, a job change is approved, you MUST give a two week notice to the employer you are leaving.**
- d. You must travel directly to and from the work site by the means of transportation approved by the work release center.
- e. No visitors are allowed at the job site or in the immediate vicinity.
- f. If a resident is approved to have a cell phone, any usage during employment must follow the resident's employer's policy and/or guidelines.

2. SECONDARY OR PART TIME EMPLOYMENT

- a. It is to your advantage to have a 2nd, or part time job.
- b. You must submit an open door request, to the Director, to obtain a 2nd job or a part time job.

3. WHITE SHEETS (Work Schedule)

- a. On Friday, you will be given a new schedule (white sheet) listing your current schedule and a form to be filled out by your employer for the following week's schedule. This form must be completed by the employer, his or her signature affixed, and returned by you to the WRC **no later than Thursday night after your shift of each week.**
- b. Failure to meet the Thursday midnight deadline will result in you being held in the center rather than reporting to the work site. **NOTE: YOU WILL NOT BE PERMITTED TO LEAVE THE BUILDING WITHOUT A SCHEDULE!!!**
- c. Submit only the scheduled work hours in the appropriate spaces. Travel time to and from work will be determined by WRC Staff.
- d. No white sheet, incomplete white sheets or late white sheet, will result in loss of privileges to include UT.
- e. You are responsible to schedule all time out authorizations such as UT, and treatment programs, on the white sheet. Failure to do so could result in missed treatment appointments and possible privileges.

4. MISCELLANEOUS

- a. Termination from any kind of employment, full or part time, may result in disciplinary action including the loss of privileges and/or return to the Dauphin County Prison (DCP). Once written up, a determination will be made at a court line hearing to determine the resident's status.
- b. Travel outside the Commonwealth of Pennsylvania is prohibited unless authorized by the WRC Director or Deputy Director.
- c. There are some employers who, by the nature of their professions and business, must travel long distances to work sites within or outside the Commonwealth. At times, this requires an overnight stay. A request for an overnight furlough must be submitted by your employer to the Director or Deputy Director, one week prior to the overnight stay. The Courts approval may need to be obtained before you can be approved. If approved, a furlough sheet must be filled out by your employer. Additional restrictive measures may be outlined when this situation develops.
- d. Residents may go to Career Link by submitting a request (open door). Residents may go to Career Link one time per week with approval until employed.
- e. The Work Release Center entrusts employers with residents' safety and the responsibility that the employer will only assign residents tasks and duties for which they have been appropriately trained and qualified to perform. If a resident feels that their job environment or the tasks that they are being assigned to perform are dangerous and a threat to their well-being due to the fact that they have not been properly trained/qualified to perform, they are to report their concerns as soon as is possible to a WR ETT Probation Officer, their assigned WR Probation Officer, an Assistant Supervisor (shift supervisor) on duty, or to a member of the Work Release Management Team. Safety concerns will be forwarded to appropriate work release staff members to investigate the resident's concerns. During this process, a resident will not be required to continue attending scheduled work hours while the reported safety concerns are investigated. Resident's found to be working in an unsafe environment, will be permitted to seek employment elsewhere accordingly. Resident's found to not be working in an unsafe environment will discuss their assigned tasks and duties with their employer and with the WRC to see if different tasks and duties may be assigned or if further training is needed. If the resident is still unsatisfied with the job duties and tasks they are assigned, they can discuss the possibility of seeking employment elsewhere with their assigned WR Probation Officer.

c. GPS Tracking Program

1. The primary goal of the GPS monitoring program is to ensure accountability for the work release inmate while out in the community. GPS monitoring will ensure the work release inmate is being compliant with a preapproved schedule granting permission to authorized locations in the community for employment, treatment, or other necessary purposes. The GPS monitoring program provides a superior means to enhance community safety by holding work release inmates accountable for their behavior. This is accomplished via the closely monitored oversight of each work release inmate's activities while out of the work release center. The GPS monitoring program is also used to protect work release residents from vindictive people on the outside accusing residents of wrong doing or being at locations that are not approved.
2. GPS conditions of supervision and the equipment policy will be reviewed and signed by all work release residents assigned to the GPS program. Failure to comply with these conditions designated in the policy will jeopardize further participation in the work release program.
3. Dauphin County incurs the financial burden for the costs associated to the GPS equipment. However should a resident damage, lose or fail to properly charge as instructed, they will then be financially responsible for the equipment and a fee will be assessed accordingly. Should you escape with a GPS monitoring unit, fully expect to be billed for up to the full amount of the entire cost of a new unit when your time comes in court if damaged or irretrievable.
